NONLINEAR ANALYSIS AND APPLICATIONS

Conference of memory of
corresponding member of
National Academy of
Science of Ukraine

VALERY SERGEEVICH MELNIK

nonlinear09.ssa.org.ua

Kyiv, Ukraine
2–4 April, 2009

General information

A conference is dedicated to the memory of prematurely gone from the life in 2007 corresponding member of National Academy of Sciences of Ukraine, chair of Department for applied nonlinear analysis at Institute for Applied Systems Analysis of National Technical University of Ukraine “Kyiv Polytechnic Institute” Valery Melnik.

The subject of conference reflects the numerous scientific interests of Valery Melnik and is determined for either pure mathematicians or business administrators or decision making system developers to take part as well.

Young scientists are invited also to participate in conference.

The working languages of the conference are English, Russian, Ukrainian.

Conference topics

1. Nonlinear analysis and topology.
2. Differential–operator inclusions and variation inequalities.
3. Theoretical tasks of optimization.
4. The applied problems of optimization.
5. Decision–making theory.
6. Dynamic systems and attractors.
7. Mathematical models of the complex systems.
8. Application of optimization and modeling.
